

Passion In Machines!

Belt fed weighing scales
Suitable for unwashed product
/ not sensitive for fouling:

You do **NOT** have to clean our
weigher whilst running
unwashed product!

Picture of a different brand
weigher using vibration lanes:

The machine that allows you to grow- and focus on your business!

- The only machine that does not compromise between speed and accuracy (in case of large volume, pay-back within 1 year on your investment possible – ask for example calculations),
- 6 – 12 scale linear weigher,
- 10 – 20 opposing scale weigher (small footprint),
- From 10 scales within 5 gram accurate,
- Suitable for consumer packs (from 500gram),
- Up to 25kg discharge in 1 dump (export weights),
- Larger weights in multi dumps,
- Self learning high speed adjustable bucket filling,
- The only machine with speed adjustable vibration lane fed buckets for “long” products (e.g. carrots),
- Suitable for unwashed product with speed adjustable NON fouling sensitive belt fed scales for round and square products,
- User friendly interface with pre-set programs,
- Big Bag filling option (250 – 1.500kg),
- Suitable for small product like onions sets,
- Suitable for large product, like root celery (+200mm),
- Suitable for industrial products, like (char) coal,
- Capacity depending on chosen discharge system.

Passion In Machines!

The machine that allows you to grow- and focus on your business!

Given dimensions based on a MHW10 linear weigher

Amerikaanse projectie

MHW16 [2x8]

Small foot print consumer pack weigher

Weight

Excluding support frame

MHW10 ± 1.750kg
MHW12 ± 1.900kg
MHW16 ± 2.100kg

Voltage

3x400V/ 230V
Optional:
3x 480V 60Hz

Power consumption

MHW10: 2,5kW
MHW12: 2,87kW
MHW16: 2,87kW
Discharge belt, each:
0,37kW

Air consumption

MHW10: 5,5 [l/disch]
MHW12: 6,6 [l/disch]
MHW16: 8,7 [l/disch]
Discharge belt, each:
0,55[l/min]

Capacities

Are related to circumstance, settings and discharge system

	1kg	25kg
MHW10:	Min 25/ Max 45 [min]	Min 14/ Max 22 [min]
MHW12:	Min 40/ Max 60 [min]	Min 22/ Max 35 [min]
MHW16:	Min 40/ Max 90 [min]	Min 22/ Max 45 [min]
MHW20:	Min 50/ Max 100 [min]
